

Complete Kit A.SCHILD®*-5007

Native Base A.SCHILD®*-5001 :

Mechanical movement with Swiss pallet fork alarm device, self-winding mechanism for movement and alarm device, center sweep second, with instantaneous date showing through aperture in dial, date corrector, fine timing, stop second, 28 800 alternances/h, casing diameter 30,00 mm Special supplies for the automatic winding for movement and alarm.

105	Barrel bridge	7155	Lower bridge for alarm device
118	Combined bridge	7165	Alarm setting device
121/4	Balance cock for stud holder, shock-protecting and regulating devices, flat hairspring	7196	Alarm barrel arbor
125	Pallet cock	7288	Unlocking wheel
126	Center wheel cock	7290	Alarm wheel
195	Barrel arbor	7294	Alarm setting connection wheel
206	Center wheel	7401	Alarm winding stem
210	Third wheel	7407	Alarm clutch wheel
227	Sweep second wheel	7410	Alarm winding pinion
245	Cannon pinion with clam notch	7418	Alarm ratchet wheel
255	Hour wheel	7420	Alarm crown wheel
260	Minute wheel	7422	Alarm crown wheel ring
305/5	Two piece regulator for adjustable stud holder and regulating device, flat hairspring	7434	Alarm clicking spring
358	Adjustable for regulator	7435	Alarm yoke
375	Adjustable stud holder	7443	Alarm setting lever
401	Winding stem	7444	Alarm setting lever spring
407	Clutch wheel	7449	Alarm ring
410	Winding pinion	7459	Disconnecter
415	Ratchet wheel	7496	Alarm bolt
420	Crown wheel	7498	Alarm hammer
422	Crown wheel ring	7771	Alarm mainspring
434	Click spring	9433/1	Stop lever, mounted
435	Yoke	5102	Case screw
440	Yoke spring	5105	Barrel bridge screw
443	Setting lever	5118	Combined bridge screw
445	Setting lever spring	5121	Balance cock screw
450	Setting wheel	5125	Pallet cock screw
453	Intermediate setting wheel	5126	Center wheel cock screw
705	Escape wheel and pinion	5415	Ratchet wheel screw
710	Jewelled pallet fork and staff	5420	Crown wheel screw
714	Pallet staff	5445	Screw for setting lever spring
721	Balance with flat hairspring, regulated	5738	Hairspring stud screw
728	Balance staff for shock-protecting device	5750	Dial screw
730	Roller	52535	Screw for date indicator guard
770	Mainspring	52555	Screw for calendar driving wheel
2535	Date indicator guard	52570	Screw for lever for double corrector
2542	Date setting wheel	52633	Unlocking yoke spring screw
2556	Date indicator driving wheel	57100	Screw for alarm-module
2557/1	Date indicator, transferred	57151	Screw for unlocking wheel holder
2569	Double corrector	57154	Bridge screw for alarm device
2570	Lever for double corrector	57165	Screw for alarm setting device
2576	Date jumper, mounted	57418	Screw for alarm ratchet wheel
2632/1	Unlocking yoke for date indicator, mounted	57420	Screw for alarm crown wheel
2633	Unlocking yoke spring for date indicator	57444	Screw for alarm setting lever spring
7151	Unlocking wheel holder	57459	Disconnecter screw
7154	Bridge for alarm device		

Special A.SCHILD®*-5007 :

100	Mainplate	1488	Pawl winding wheel
182	Barrel and cover	1491	Oscillating weight bolt
771	Mainspring with brake spring	1535	Reversing wheel
1141	Lower bridge for automatic device	1575	Driving gear for alarm ratchet wheel
1142	Bridge for automatic device	1588	Pawl winding wheel for alarm
1143/1	Oscillating weight, mounted	7182	Alarm barrel and cover
1428	Stop click	7772	Alarm mainspring with brake spring
1448	Stop click spring	51141	Lower bridge screw for automatic device
1478	Oscillating weight pinion	51142	Bridge screw for automatic device
1482	Driving gear for ratchet wheel	51491	Screw for oscillating weight bolt
